Life changing. 100%
recommend. It kept me alive.
I now feel I have a future.

I feel so much better than I
did in September. I wished I
had come to counselling
sessions earlier. I'm feeling
ready to live again.

I was very low when I first
came to Willow Burn but can
now see the future and want
to find a job and look after
my partner.

Very supportive service.

Coping better these days.
