Who we are and what we do

Willow Burn Hospice provides palliative and end of life care to people living in County Durham with a life-limiting illness and their families. We provide this within the scope of in-patient care, day services, family support and bereavement care and complementary therapies (as part of in-patient and day care service).

Our aim is to relieve physical and emotional distress, control symptoms and to provide care, comfort and compassion at end of life.

Our Nurse led team is supported by palliative care consultants, Dr David Oxenham and Annabelle Plyming and two sessional GPs with Specialist Interest – Dr Carole Patterson and Dr Sara Colclough.

Our hospice is located in Lanchester County Durham and has been purpose-built to provide a homely, welcoming environment, placing significant emphasis on an individual's dignity, privacy and comfort.

Willow Burn Hospice is registered with the CQC for the treatment of disorder or injury within the hospice for adults with palliative and progressive health conditions.

Willow Burn provides care to Palliative and End of Life patients and their families in line with current National and Local policies and guidelines which encompasses NICE, Ambitions for Palliative Care strategy, Northern Clinical Network Palliative and EOL Guidelines. North Durham Integrated Care Board, Palliative and End of Life Care Steering Group, Leadership Alliance for the Care of Dying People – 'One Chance to get it Right' principles which include the 5 priorities: Recognising, Communicating, Involving, Planning and Supporting.

Day Centre

Referrals for Willow Burn Hospice Services

In-Patient Care

The referral needs to identify a need for specific palliative care input having considered resources that may be available locally to the patient. This includes patients with an advanced progressive illness with whom the referral has been discussed. The patient needs to require supervision from a registered nurse. The patient may have:

- Uncontrolled symptoms regardless of stage or outcome, psychological support needs, spiritual support needs, support to adapt to the limitations of their condition and maximise their quality of life, over and above that which can be managed by the team currently providing their care.
- The need for end of life care.
- The need for crisis respite care cannot be met by other services in his/ her local area.
- The need for crisis management/intervention
- The patient must be aged from 18 years for in –patient and day services. (Children and Young people can be referred to the out-patient Family Support Service.)
- The patient lives in County Durham and has a registered GP who will continue to provide medical cover* while at the hospice for day and in-patient services.

*for in-patients, for the purposes of issuing prescriptions and MCCD/review may require a video consultation.

Day Services

The day service is nurse-led and the philosophy of care is to support people to 'live well with their illness'. Programmes provide appropriately focused sessions and social care which are designed to be responsive to patients' needs and wishes. Medical/allied professional services are not available in the day hospice, therefore not suitable for treatment and rehabilitation, however patient cases may be discussed at the GPSI MDT session held weekly and the GP/referrer contacted for onward/additional referral if required.

- The referral needs to identify a need for specific care for patients with a palliative/life limiting illness, having considered resources that may be available locally to the patient.
- The referral needs to be discussed and agreed with the patient. The patient needs to require supervision from a registered nurse.

Family Support & Bereavement Services

Support is provided from diagnosis, pre-death, post-death and is ongoing throughout the bereavement process. This support is offered not only to our in-patients in the Helen McArdle Wing and day care clients, but we also accept referrals from the community. Community referrals will be received by the Family Support Co-Ordinator who will complete an assessment to identify any need for counselling or other support.

Making a Referral

You can find our referral forms located on our website at:

www.willow-burn.co.uk/information-for-healthcare-professionals

Alternatively call us and ask to speak to the nurse on duty who will be able to help you:
